

6G5 - Illustrate and name parts of circles, including radius, diameter and circumference and know that the diameter is twice the radius

What is the radius of the circle in centimetres?

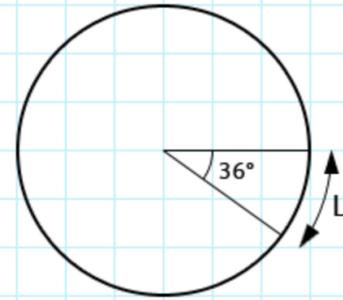

What is the diameter of the circle in centimetres?

What is the name for the shaded area of the circle?

- Circumference Radius Arc Sector

The circle has a circumference of 80.
Calculate length L.

The diameter of a circle is 13.
What is the radius of the circle?

The radius of a circle is 12.
What is the diameter of the circle?
