$\square \times 7.32 = 7320$

What is the missing number?

$600 \times \square = 42000$

What is the missing number?

$$\begin{array}{r} \square\,4\,\square\,4 \\ +\quad 9\;\blacksquare\;5\,\square \\ \hline 1\,2\,0\,2\,9 \end{array}$$

What number goes in the shaded box?

$\square \times 9 = 720 \div 8$

What is the missing number?

Number cards

3 0 2 1 7

Number statement

$\square\square + \square = \blacksquare\square$

Use the 5 number cards to make the number statement.
Which number goes in the shaded space?

Number cards

0 1 9 6 5

Number statement

$\square\square \times \square = \blacksquare\square$

Use the 5 number cards to make the number statement.
Which number goes in the shaded space?
