

4G2b - Identify lines of symmetry in 2-D shapes presented in different orientations

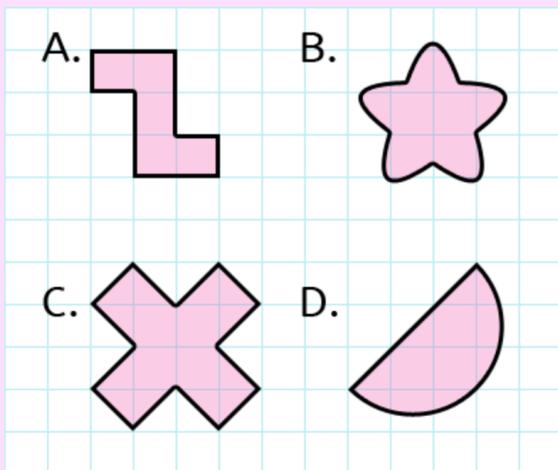

Which shape has one or more lines of symmetry?

- D    A    B    C

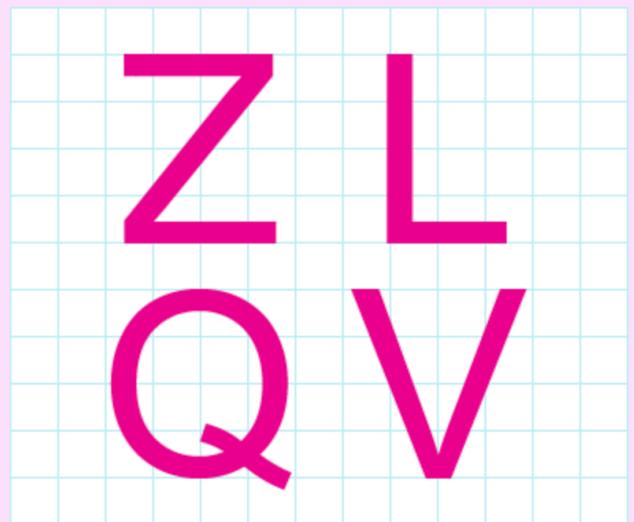

Which shape has one or more lines of symmetry?

- C    A    D    B

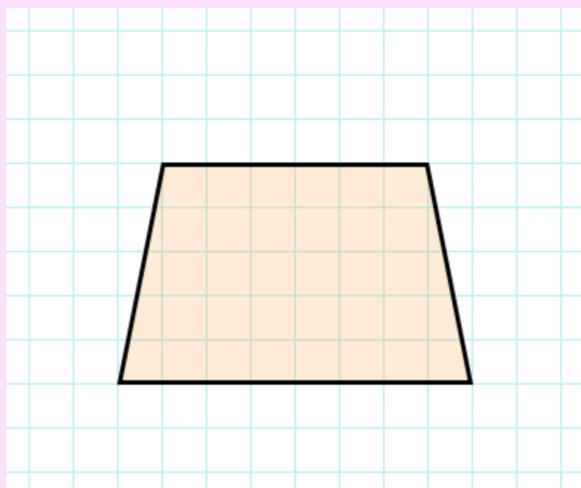

Which shape does NOT have any lines of symmetry?

- D    B    A    C

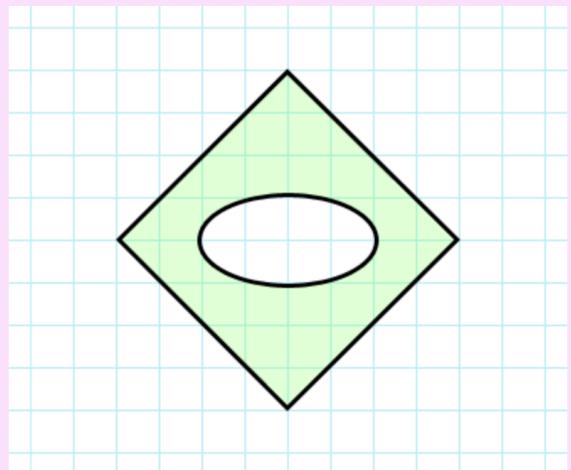

Which letter has one or more lines of symmetry?

- V    Q    L    Z

How many lines of symmetry does the shape have?

How many lines of symmetry does the hollow shape have?
